

REPORT

REVENUE SETTLEMENT

TONK,

Part III.

PART III.

Rules for the investigation and decision of Muafi, Riayati, Mortgage and Sale Cases.

PART I.—Preliminary.

1. These rules are framed on the recommendations of the Settlement Officer and the members of the Tonk Council and sanctioned by the Tonk Darbar for the disposal of the following cases instituted in the Settlement Department :—

- (1) "Muafi" claims.
- (2) Riayati claims.
- (3) Mortgage and sale cases.

2. The following descriptions of "Muafi" holdings are met with in the State:—

- (a) "Bakhshao" or "Inami," i. e., land awarded for service rendered, or duties discharged.
- (b) "Khairat," "Udak" or *Punarth*, i. e., land granted in charity, for reciting the "khata," for pilgrimages, on the occurrence of eclipses, at obsequies, at deathbeds, and for religious ceremonies.
- (c) "Waqf" or "Arpan," i. e., land allotted to defray the cost of constructing mosques, "mandars," "khangahs," graveyards and "samadhs."
- (d) "Rifah-i-am" comprises land given for the public good such as "olabara" for averting hail; "tiribara" for averting locusts "piao" for supplying drinking water; and lands allotted for "maktabs," "patshallas," "dharmosalahs" and "musafar-khanas."
- (e) "Moondkati" or "Khunbaha," i. e., land given as compensation for wounds or loss of life.
- (f) "Petroti" or Madad-maash, i. e., land given for a person's maintenance.
- (g) "Chakri" or "Aiwaz Khidmat."—Land given to the ministers of mosques, "mandars," and monasteries, to "pandas" and "Bhoomias" and to chowkidars and other village servants such as barbers, "balahis," sweepers, &c.
- (h) "Muafi Mutafariq," miscellaneous grants of land for planting, gardens or constructing houses, "baoris" or wells.
- (i) "Muafi Seegah" or "Ohda."—Lands granted to the holder of an office, such as the kanungo, chawdhri, pharnavis, patel and patwarri.

3. Riayati grants are of the following descriptions:—

- (a) "Riayat Seegah" or "Ohda" granted to "seegahdars" and "ohdadars" such as the kanungo, chawdhri, patel and patwarri.

- (b) “*Riayat Kaumi.*”—Privileges allowed to castes or classes such as Sheikhs, Sayads, Moghuls, Pathans, Brahmans, Rajputs, Kaieths, Mahajans, Charans and Barwas.
- (c) “*Riayat Mulazimi.*”—Privileges enjoyed by state Servants.
- (d) “*Riayat Aiwaz Khidmat.*”—Privileges enjoyed by chowkidars, “balahis,” barbers, potters, goldsmiths, blacksmiths, washermen, “dolis,” “begaris,” sweepers and others.
- (e) “*Riayat nugs arazi.*”—Remissions allowed for inferiority of soil.
- (f) “*Riayat abadi araziat banjar.*”—Concessions made when waste lands are brought under cultivation.
- (g) “*Riayat taraqi haisiat araziat.*”—Concessions made for land improvement.
- (h) “*Riayat khair khwahi.*”—Concessions made for good service or loyalty.
- (i) “*Riayat bhood.*”—Concessions made to bhoodias in return for their services.
- (j) “*Riayat ba tour khairat.*”—Charitable grants.
- (k) “*Riayat ba taur Inam.*”—Remissions made in the way of rewards.

4. *Mortgages and sales.*—There are three kinds of mortgage—

- (a) “*Rahan bilqabz.*”—Mortgage with possession to the mortgagee.
- (b) “*Rahan bila dakhla.*”—Mortgage without possession to the mortgagee.
- (c) “*Rahan-i-aiwanl,*” i.e., when land is mortgaged as security, and remains in the possession of the mortgagor, but may not be mortgaged to another.

Sales are of two kinds—

- (a) “*Bai Khalis*” or simple sale when the purchaser takes possession of the property sold.
- (b) “*Bui hilwafa.*”—When there is a written agreement that the property shall be deemed as sold if the sum for which it is mortgaged is not paid by a certain date.

5. *Form A.*—Statements will be prepared in this form showing muafi lands of each description referred to in Sec. 2, and riayati lands referred to in Sec. 3, with their area, &c., in each pargana.

Form B.—This form will give a summary of the result of enquiries into muafi claims.

Form C.—This form will give a summary of the result of enquiries into riayati claims.

Form D.—This statement will give a summary of the results of enquiries into mortgage and sale cases.

6. A list of the "Kammi" riayatdars with particulars as to the custom and usage in each pargana will be prepared in the Settlement Department and submitted to the Durbar.

7. When all claims have been decided statements will be prepared by the Settlement Department of the various classes of muafi holdings referred to in Sec. 2, and of riayati holdings referred to in Sec. 3. One copy of each statement will be filed in the Sadr Office, Tonk, and one in the Nizamat of each pargana.

In both statements areas will be shewn in local as well as survey bigahs.

8. Copies of sanads, statements of muafi and riayati lands, and accounts of "Salana" and "Sehsala" will be forwarded to the Settlement Office from the Sadr Offices and Nizamats.

PART II.—*Procedure for Investigation.*

9. All cases mentioned in these rules will be instituted in the Settlement Department.

10. Each case will be entered in a register, and investigated in the Settlement Department by munsarims and girdawars under the directions already issued by the Superintendent, or such orders as may hereafter be issued by him.

11. The summary of enquiries into muafi cases will be recorded in Form B, riayati cases in Form C, and mortgage and sale cases in Form D.

12. An exact copy of all "pattas" and "sanads" of muafi and riayati holdings, and of mortgage and sale deeds, will be made, compared with the original in the presence of the Superintendent of the Settlement Department, the Assistant Superintendent, the Nazim or Peshkarmal of the pargana, and placed with the file.

If the patta or sanad is deemed authentic, an entry to that effect will be made on the back of the copy and in the summary of the enquiry. If the deed is not considered authentic a note to that effect will be recorded in the same way.

13. Copies of mortgage and sale deeds will be made on unstamped paper and filed.

14. All original mortgage and sale deeds on unstamped paper will, if the claim be proved, be transcribed on stamped paper of the proper value.

15. Excepting the attestation of sanads, "pattas," and mortgage or sale deeds, the remaining procedure such as recording the statements of claimants, the evidence of the patel and patwarri, &c., will be carried out by girdawars under the supervision of the Tasdiq Munsarims.

16. In khalsa, jagire, istamrar, and muafi villages only claims regarding such muafi and riayati holdings as are alleged to have been state grants will be investigated.

PART III.—Evidence.

17. All muafi and riayati claims which have already been, or may hereafter be instituted, will be decided on evidence as follows:—

- (a) Records existing in the Head Office of the Revenue Department, Tonk.
- (b) Records in the Nizamat Offices of parganas.
- (c) Pattas or sanads.
- (d) The patwarris' records.
- (e) The statements of claimants, and the evidence of witnesses.

18. Muafi sanaads and riayati pattas signed by rulers, or chiefs, or given by officers in authority under their general, or special orders, will be accepted as evidence, provided that:—

- (a) The claimants are in possession of the land claimed.
- (b) The riayatdars have fulfilled the conditions required by the patta without pecuniary aid from the State.

Note.—The officers referred to above are—

- (a) The Nazim of the pargana.
- (b) The peshkar of the pargana acting for the Nazim.
- (c) The Kamdar, the Dewan and the Chief State Official, at present entitled the Naib-ul-Riasat.
- (d) Mukhtiar-ud-dowla Sahibzada Mahmood Khan.

19. Copies of sanads or pattas in the possession of muafidars, or riayatdars signed by authorized officers of the State, as defined in Sec. 18, copies of which exist among the State records, will also be accepted in evidence.

20. If no sanad is produced, and no entry is found in the State records, but "Salana," "Nazaranā," "Shukrana," or "Sehsala" for muafi or riayat, holdings has been paid, such payment will also be accepted as evidence.

21. When neither the original sanad, or patta, nor a copy exists, statements of muafi and riayati holdings recorded in the Sadr or Pargana Offices will, when occupation is of long standing, be regarded as evidence.

Occupation of long standing means occupation dating from a period previous to the rule of the late Nawab H. H. Amir-ud-dowla Bahadur, and continuing up to the present time.

In such cases the cash payment of Nazaranā, Shukrana, Salana, and Sehsala will be considered as evidence of possession, but only with regard to the actual area for which such payments have been made.

22. Tanba pattas will be considered genuine when supported by entries in the Tonk Sadr Office and when possession is of long standing as defined in Sec. 21.

PART IV.—*Decisions.*

23. All muasi riayati, mortgage and sale cases will, when investigation is completed, be dealt with by the Superintendent of Settlement Operations, who will pass orders upon them in accordance with these rules.

24. If neither the original sanad, or patta for muasi, or riayati holdings nor a copy of the same, as authorized in Section 19, is produced, and the holding is not entered in the Sadr, or tahsil records but is simply recorded in the patwarris registers, then such holding will be assessed at the ordinary "Kirsani" rates, and the claimant informed that if he has any grievance he should apply to the Durbar. If the claimant pays "Salana" the case, together with the decision arrived at will be submitted to the Durbar; and in dealing with cases relating to patels, patwarris, and the village servants, such as chowkidars, balahis and others, if it be deemed proper, recommendations will be made for the maintenance of their rights.

25. If the land claimed is entered in the tahsil records, but no sanad, or patta is produced, then the case with a copy of the record will be forwarded to the Durbar for orders, and if it seem advisable for issue of a fresh sanad or patta.

26. When a muafidar, or riayatdar has for any reason relinquished his land, and such land has, without proper authority, been entered as Khalsa land, investigation regarding the claim may be made within twelve years from the date of relinquishment and the proceedings submitted to the Durbar.

27. If land belonging to a muafidar or riayatdar is held by an ordinary, cultivator, a patel or patwarri, claims regarding it will be investigated within the limit of 12 years prescribed in Section 26, and the case forwarded with the opinion of the Settlement Officer for the Durbar's orders.

28. If a Patel, patwarri or ordinary cultivator has, without special authority, taken possession of muasi or riayati land belonging to another person, and has held the same revenue-free, or has paid only the riayati assessment, the case will be enquired into and forwarded with the Settlement Officer's opinion or the Durbar's Orders.

29. The riayat of seegahdars, officials, and village servants will be maintained on condition of their performing their duties.

30. The period of the riayat specified in the patta will be maintained. When the period is not so specified, the riayat of seegahdars, officials, and village servants will be considered as in perpetuity so long as they perform their duties. Riayati remissions for inferiority of the soil, and caste remissions will also be considered as granted in perpetuity, but caste riayats will hold good only so long as the land is occupied by a riayatdar of the caste specified.

31. Riayati lands granted to ordinary cultivators and other persons on condition of their breaking up waste lands, or bringing land under irrigation by the construction of new wells, &c., will, if the words "in perpetuity" are not entered in the patta, become khalsa when the term of the present Settlement ends. If any period is specified in the patta, however, the riayat will be maintained for that period.

32. The area of a muafi or raiyati holding specified in a sanad or patta will, if the deed be found genuine, be deemed the correct area. If the area occupied be less than that specified in the sanad or patta, then only the area actually occupied will be entered in the Settlement records, and the case forwarded to the Durbar's orders. If the area occupied is more than that entered in the sanad or patta, the excess will be forfeited.

33. If no sanad or patta is produced, or the area is not specified in the sanad or patta, then the area recorded in the Sadr or tahsil records will be considered correct, but if the area occupied be less than that recorded, only the area so occupied will be granted.

34. All muafi or raiyati lands which by the Durbar's orders become khalsa, will be entered as such, and no claim will be entertained regarding them.

35. When a muafi or raiyati holding granted for some particular purpose such as the service of a temple, &c., has been hypothecated by the muafidars or raiyatdars, the case will be submitted to the Durbar for orders.

36. If a muafidar or raiyatdar has died without heirs, his holding will be forfeited, except in the cases mentioned below.

Lands not liable to such forfeiture are:—

- (a) Muafi or raiyati holdings granted for the service of mosques and "makbaras."
- (b) Muafi or raiyati holdings granted for the service of a mandar.
- (c) Muafi or raiyati holdings granted to chowkidars, balahis, and other village servants for performance of their duties.

37. If a muafidar or raiyatdar has adopted an heir in accordance with the custom and usage of the pargana, such adoption will be recognized. If any doubt exist regarding the adoption, the case will be forwarded with the opinion of the Settlement Officer for the Durbar's orders.

38. In the case of ministers of mosques or graveyards, pujaris of mandars, balahis, chowkidars, kumhars, kahars, and village servants who die without heirs, the patels, patwarris and other State officials (seegahdars) will, with the sanction of the Nazim of the pargana, appoint a successor.

39. If a muafidar constructs a well or oree, or effects any other land improvement, he will be entitled to the advantages derived therefrom. For

instance, if the grant according to the sanad consists of 100 bigahs "maletee" and 10 bigahs "adan," and the muafidars has brought 50 bigahs of dry land under irrigation, the Settlement record will show the holding as 60 bigahs "adan" and 50 bigahs "maletee," but salana will be increased in proportion to the value of the improvement effected.

40. The claims of heirs of haqiatdars will be disposed of by the Durbar in accordance with the State usage, when such claims are brought forward.

41. Muafidars or riayatdars who possess no sanads or pattas, and whose claims are upheld, may obtain fresh sanads or pattas from the Durbar on application made through the Settlement Office.

42. Riayati rates in bighori villages will be maintained in accordance with the terms of the pattas, and in Lata Koota villages in accordance with the proposals made by the Settlement Officer in the assessment report on the Nimbahera Pargana which have been sanctioned by the Durbar.

43. Mortgages and sales, dating previous to the introduction of the Settlement, will be investigated and, when proved, will be upheld.

44. When both parties acknowledge a sale or mortgage, it shall be considered proved and entered in the Settlement records.

45. When a mortgage or sale is disputed, or there is conflicting evidence, the parties will be warned to institute proceedings in the proper court, and the transaction will not be entered in the Settlement records.

46. In mortgage and sale cases existing occupancy will be maintained.

PART V.—*Appeals.*

47. Appeals from decisions passed by the Settlement Officer will be to the Council within a period of 90 days, dating from the day on which notice of the decision is issued.

Form B.—Muafi Case.

Rules and Regulations regarding State Forests and Grass Birs.

I.—The general management and control of all State forests and grass birs shall be entrusted to a Member of the Council, who shall have such powers as may hereafter be defined.

II.—The immediate management and control of all State forests and grass birs in each pargana shall be entrusted to the Nazim of the pargana, who shall have such powers as may be hereafter defined.

III.—Such subordinate Forest officials and Forest guards as may appear sufficient for each pargana will be from time to time appointed by the Council after considering the recommendations of the Nazim of the pargana and the opinion of the Member of Council in charge of State forests.

IV —The limits of all State forests and grass birs shall be indicated by conspicuous boundaries. The pillars shall be erected and maintained by the Forest Department. Village boundary pillars falling within the limits of any State forests or grass birs shall be maintained by the villagers.

V.—The following acts are prohibited within the limits of State forests and grass birs :—

- (a) Breaking up waste land for cultivation without permission of the Nazim of the pargana.
- (b) Setting fire to grass, or negligently permitting fire to extend to a State forest or grass bir.
- (c) Setting fire to brushwood, trees or stumps of trees.
- (d) Lopping, breaking or otherwise injuring growing trees or bushes.
- (e) Removing soil or dead leaves from under trees.
- (f) Selling standing trees.
- (g) Cutting young trees under any circumstances.
- (h) Collecting fallen wood of any kind without permission.
- (i) Collecting gums, resins, honey, wax or other minor forest produce without permission.
- (j) Carrying, or kindling fire.
- (k) Carrying any implement to cut wood, except when it is carried in pursuance of a permit to cut wood.
- (l) Digging or quarrying for stones, lime or kunker without permit.
- (m) Grazing cattle without permit.
- (n) Cutting grass, otherwise than is provided for in these regulations.

VI.—Any person who shall commit a breach of the above rule shall be punished on conviction before a magistrate with a fine not exceeding for the

first offence Rs. 50, and for the second or any subsequent offence Rs. 100. This punishment is to be in addition to any other consequences that would ensue from such breach.

Responsibility of Villagers.

VII.—It shall be the duty of all villagers, whose habitation is not more than 3 miles from any State forest or grass bir, to render aid in extinguishing fires which may occur in them.

VIII.—The villagers of any village, within three miles of a State forest or grass bir, are individually and collectively responsible for rendering aid toward preventing or extinguishing such fires.

IX.—If any person whose duty it is under rules VII. and VIII. to render aid in preventing or extinguishing such fires, refuses or neglects to render reasonable aid on being required to do so by any Forest official, the person shall be liable on conviction before a magistrate to a fine not exceeding for the first offence Rs. 50, and for the second or any subsequent offence Rs. 100.

Cattle Trespass.

X.—All cattle found straying or unlawfully grazing in any State forest or grass bir may be seized by any Forest official, and when so seized shall be driven forthwith to the nearest pound.

XI.—When a right of way through any State forest or grass bir is maintained, it shall be held to protect from seizure all cattle lawfully driven along the road or tract indicated, even though they stray into the State reserve so long as the driver uses reasonable diligence to prevent them from straying, and to drive back such as stray.

Rules for grazing in State reserves.

XII.—The grazing shall be for a defined area and specified period, and under a pass specifying the number of animals admitted to graze.

XIII.—Application shall be made to the Nazim of the pargana by the pater of the village requiring grazing one month before the date required containing a statement of the number of cattle belonging to the village, and the number for which a pass is required. Any cattle found grazing in excess of those specified in the pass shall be charged at such punitive rate as the Nazim of the pargana may authorize.

XIV.—The owners of all cultivated land within the boundaries of State forests or grass birs shall only be entitled to pass within their limits such cattle as are *bona fide* required for ploughing or other agricultural purposes.

Cutting grass in State Forests and grass birs.

XV.—Application shall be made to the Nazim of the pargana by any villager wishing to cut grass in any State forest or grass bir, containing a statement of the cattle in his possession, the amount of grass required, and

the tract from which it will be cut. When such application is on behalf of the whole village community it shall be submitted by the patel.

XVI.—Subject to the control of the Member of Council for State forests, the Nazim of each pargana shall issue written orders determining the season at which grass may be cut, the mode of cutting it, and the charge to be paid, and prohibiting the cutting of it in any tract where such cutting would tend to damage the trees there growing.

Cutting wood in State Forests.

XVII.—Application shall be made to the Nazim of the pargana by any villager wishing to cut wood or brushwood, or to collect fallen wood or other minor forest produce, with a statement of the purpose for which it is required.

XVIII.—The cutting of wood or brushwood or collecting of minor forest produce shall, as far as possible, be carried out under the supervision of some Forest official.

Right of way.

XIX.—Subject to the control of the Member of Council for State forests, the Nazim of any pargana shall be empowered to stop any way across a reserved tract, and assign another way instead of it, provided that the new way set out by him be a reasonably convenient substitute for the way so stopped.

Fines.

XX.—All fines levied under these rules shall be credited to the Forest Department.

Right of Zamindars as regards Grazing Cattle and cutting Wood and Grass.

XXI.—With the exception of State jungles and grass birs, the uncultivated area, included within the limits of a village, will be considered as the "shamlat" land of the village, and all residents of the village will be allowed to graze their cattle or cut grass thereon, under the control of the village Panchayat, who will see that all assamis have their fair share of the grazing.

XXII.—With the exception of trees growing near the village, or in or on the borders of fields, all trees within the village limits will be considered as State property, unless any assami can prove his right to claim them, and no person will be allowed to touch them without permission of the State.

XXIII.—Trees growing near the village, or in or on the borders of fields, will be considered the property of those on whose land they are growing, or those who can prove their claim to them, with the following provisos—1st that up to the present time they have not been the property of the State, and 2nd that new settlers shall have no right to claim trees growing in or on the borders of fields, or near the village, without State permission.

Draft Land and Revenue Regulations

Chapter I. Preliminary.

- ,, II. Regarding interests in land.
 - A. Certain rights of the State.
 - B. Rights and duties of occupants.
- ,, III. The assessment of the land.
- ,, IV. Realization of land revenue.
- ,, V. Grazing rights.
- ,, VI. Boundary marks.
- ,, VII. Procedure of revenue officers.
- ,, VIII. Duties of revenue officers.
- ,, IX. The "haqs" of patels and others.
- ,, X. Regarding mortgage and sale.
- ,, XI. Regarding the founding of new villages.

DRAFT**LAND AND REVENUE REGULATIONS.****CHAPTER I.—Preliminary.**

1. This regulation extends to the whole of the Tonk State and shall be called the "Qanuñ Mal."
2. It shall come into force on the 1st June 1893, or on such other date as H. H. the Nawab may direct.
3. The Durbar reserves the right to amend this regulation as may seem necessary from time to time.

CHAPTER II.—Regarding interests in land—Certain rights of the State.

4. The State is the owner (*malik*) of the soil.
5. The State is the sole owner of all mines opened and unopened.
6. The State is entitled to take free, or authorize persons who have entered into any contract with it to take free from any quarry, whether previously worked or not, as much stone, kankar, or other like substance as is needed for any public purpose.

Provided that rights in land and mines ceded by the Durbar to others, and which may be so conceded, shall not be interfered with.

7. The State shall be presumed, until the contrary is proved, to be entitled to the exclusive use and control of the water of all rivers and streams within the limits of the State, and of all tanks, embankments, wells, and orees constructed at the State expense, or which are or may come into its possession in accordance with these rules.

8. No person shall make use of the pasturage or other natural product of any land occupied by the State, except with the permission of the Nazim of the pargana, and subject to these or such other rules as may from time to time be prescribed by the Durbar.

Certain rights and duties of occupants ("khatadars")

9. Khatadars are of two classes—

(a) Maurusi and (b) Ghair Maurusi.

10. For each field the names of one "khatadar" or (in the case of sharers) several "khatadars" have been recorded.

A khatadar's name will be entered for each holding whether of, one or more numbers. If there are several sharers all their names will be entered with a statement of the share of each or the remark that they share equally.

11. A "maurusi khatadar" is one whose right of occupancy is inherited. A "ghair-maurusi khatadar" is one whose right of occupancy is not inherited. The following lands, however, will be considered maurusi:—

- (a) Banjar Kadim that the khatadar has brought or may hereafter bring under cultivation.
- (b) Land which a khatadar has brought or may hereafter bring under irrigation by the construction of an irrigation work at his own expense.
- (c) Land which any person has brought or may hereafter buy from a maurusi khatadar.
- (d) Land which may be granted as maurusi by the Durbar.
- (e) Land entered at Settlement in a khatadar's name without dispute.

12. No "khatadar" will be deprived of his right of occupancy so long as he pays the assessment fixed for the land he occupies, except:—

- (a) When he himself relinquishes his right.
- (b) When he is deprived of his right by order of the Durbar for misconduct.
- (c) When he is unable or unwilling to irrigate any portion of his holding, and another khatadar undertakes to irrigate the same, in which case five times the amount of the annual assessment of the land in question with "kharcha" will be paid to the original occupant as the value of his right of occupancy. If the purchaser is able to afford it, he will pay the full amount of the purchase money at once, otherwise he will, on obtaining the sanction of the Nazim of the pargana, pay half the purchase money at once, and the balance (without interest) within two years of the date on which he took possession of the land. The purchaser shall also pay to the previous occupant such compensation as may be awarded by a panchayat assembled by the Nazim of the pargana for trees belonging to the previous occupant, enclosures or embankments made at his expense, and the cost of ploughing the land for the year previous to its transfer. If the land has been sown, it will not be transferred till the end of the year when the crops have been removed.
- (d) When the term for which land has been given to a khatadar for occupation expires.
- (e) When the Nazim of the pargana transfers "ghair maurusi" land before it is sown from one cultivator to another who offers to pay a higher rate for it.

13. The "khatadar," whose name is entered in the Settlement records as occupant of any holding or portion of a holding, will be presumed to be the rightful khatadar until the contrary is proved.

14. A "khatadar," who has relinquished his holding before the Settlement was introduced, may at any time within a limit of 5 years from the year in which the Settlement rates were announced in the pargana in which the land is situated, apply to the Nazim of the pargana to recover his right of occupancy.

15. In such cases the claim will be investigated by the Peshkar Mal and forwarded with his opinion and that of the Nazim for the orders of the Durbar.

16. If the claim is allowed, the khatadar whose name is entered in the Settlement records will (1) retain his right of occupancy until the crops on the land claimed have been gathered, and (2) receive compensation, the amount of which will be decided by a panchayat appointed by the Nazim for any land improvements he may have made on the land claimed. But when pending a decision of the case the land claimed has been made over by the Nazim of the pargana to another for a stated period, it shall not be transferred until that

period has expired. After the decision has been announced, the occupant shall not be allowed to sow the land in order to prolong his occupancy.

17. "Khatadars" may raise any crops they please on the land included in their holding, or may let out such land for cultivation so long as they pay the assessment fixed at Settlement.

18. When the whole or any portion of the assessment of land included in a holding has been outstanding for 3 years, the Nazim may, without the consent of the khatadar, make over the whole or a portion of the holding to another person, whose name will be recorded as "zaili-kashtkar."

19. When there are several sharers in a holding, the sharers must together pay the Settlement demand. When there is a doubt as to what amount is due from each sharer, the Nazim will order a panchayat to decide the matter on its merits.

All sharers are to be considered individually and jointly responsible for the whole payment of the land entered in their holding. If one sharer makes default, the other sharers will be called on to make up the full amount, and the name of the defaulting sharer will then be struck off, and his share divided among the other sharers.

20. When any "khatadar" or sharer dies, the name of his heir will be entered in his place, and no fee charged for such entry. Should no heir be forthcoming, the holding will revert to the State, and be treated as a State holding.

21. In the event of a sharer dying without heirs, the share will be offered without sale to the other sharers, and if they decline to take it, the share will be treated as a State holding.

22. Any "khatadar" or sharer wishing to resign any portion of his holding to the State, or to transfer it to the name of another person, may do so. In the former case the land so resigned will be treated as a State holding; in the latter case the name of the transferee will be entered as "zaili-kashtkar." No fee is leviable for entering such resignation or transfer.

23. All deaths, relinquishments, and transfers must be reported by the patel, through the revenue officials, to the Nazim, who will have the necessary alterations made in the village records. All relinquishments and transfers must be reported by the patel to the patwarri before the 15th May. If not reported before that date, the heirs of the "khatadar," or sharers in the land in question, will be held responsible for the assessment, and in their absence the patel and patwarri.

24. The Nazim of the pargana is responsible that in the case of transfer of land from one holding to another, the full assessment fixed at Settlement upon any field is paid.

25. When a petition is made for the division of a field for any sufficient reason, such as that it is inconveniently large, or for other cause, the Nazim may sub-divide the field into two or more parts by divisions which will be treated in accordance with the rules for guidance of patwarris.

26. In the event of a khatadar or sharer dying, whose heir is a minor incapable of managing the holding himself, the name of the heir will still be entered as, "kabiz," and his nearest relatives will arrange for the temporary management of the holding, and report to the patwarri for the sanction of the Nazim.

If such arrangement cannot be satisfactorily made, the Nazim will issue orders for the cultivation of the holding until the heir is 18 years of age, when he will assume the management.

27. When the heir to a holding is absent, temporary arrangements will be made as described in the above section for a period of 5 years, and the Nazim of the pargana will take measures to communicate with the heir. If he claims occupancy within 5 years, his claim will be investigated in the manner prescribed in sections 111, 112.

28. If any khatadar relinquishes all or any number in his holding or on the death of a khatadar without heir, the Nazim of the pargana will make over the land relinquished to another for cultivation, and will be authorized to raise or lower the assessment as may seem advisable, but if the reduction is more than 4 annas in the rupee sanction must be obtained from the Durbar.

29. The rights of a khatadar extend only to letting or cultivating his land and constructing land improvement works. He may also with the permission of the Nazim remove kankar, earth and stones to build houses for himself and his "zaili-kashtkar," but he may not remove kankar, &c., for sale without the Nazim's permission.

30. Any person desirous of taking up unoccupied land must, previously to entering upon occupation, give notice to the patwarri, and obtain the permission in writing of the Nazim of the pargana. Any person who unauthorisedly occupies any land will be liable to pay a fine not exceeding 3 times the full assessment fixed at Settlement for such land, and to immediate ejection if the Nazim thinks fit.

31. Waste land not included in any khatadar's holding will, as a rule, be granted to the first applicant, but a villager of the village in which the land is situated will have preference over any outsider, provided he makes his claim as soon as the newcomer takes possession, and that he agrees to pay the assessment; and the cultivating classes shall have preference before non-cultivators, and those khatadars who hold land near the waste land in question shall have preference over others.

32. The Nazim will endeavour to let waste land to people who intend to cultivate themselves, and large grants of land to individuals, whether one man or several together, for purposes of sub-letting are prohibited without the special sanction of the Durbar. This rule is not intended to prevent the demarcation of sufficient land to found a new village, but only so much of the land as each cultivator requires will be entered in the name of each cultivator, and the rest of the land will remain in the State's holding until required.

CHAPTER III.—The assessment of the land.

33. Under the Settlement all khalsa villages in the State have been surveyed field to field. The soils on the cultivated as well as culturable khalsa area have been classified. Each cultivated field and each plot of "jadid," "kadim" and culturable land has been separately numbered. Rates have been fixed per survey bigha in the currency prevailing in the pargana for each class of soil in each khalsa village according to the circumstances and capabilities of the village.

/ The survey bigha is the square of a chain 165 feet in length.

The Settlement assessment is for a period of 20 years from the date sanctioned by the Durbar for the introduction of the Settlement in each pargana.

The rates fixed at Settlement will not be raised or lowered, except under the provisions of this regulation.

Irrigated land.

34. All land entered as irrigated in the Settlement records will be assessed at the Settlement rates for irrigated land, and similarly all land entered as "eksakha" or "dhangharra" will be assessed at "eksakha" or "dhangharra" rates, until sufficient cause is shewn for any alteration in the assessment.

35. If, for any reason the supply of water for irrigation purposes from a tank, well, or stream cease, report will be made by the patel of the village, through the revenue officials, to the Nazim of the pargana, who will investigate the case, and issue orders for the assessment of the land in question at "eksakha" rates.

Proviso.—If the supply of water from any irrigation work ceases for more than two years, eksakha rates shall only be charged for two years and after that maletee rates. When the water is again available full piwat rates will be charged.

36. One "khatadar" may arrange to supply water from an irrigation work in his holding to land in the holding of another "khatadar" in the same or a neighbouring village of the Tonk State only, on any terms he pleases, but—

Proviso A.—Under no circumstances may the water-supply, if available, be withheld while the crops on the land so irrigated are standing.

Proviso B.—When the water-supply ceases the land formerly irrigated will be assessed at $\frac{1}{2}$ the Settlement rates for irrigated land in the village in which it is situated or in parganas where land is recorded as "eksakha" at "eksakha" rates according to the class of soil for a period of two years after it ceases to be irrigated. If the land is entered in the Settlement record as piwat, full piwat rates will be charged so long as it is irrigated.

Proviso C.—If the land in question becomes irrigated owing to the construction of any well or oreo by the "khatadar" in whose holding it is situated, such

"khatadar" will be assessed at $\frac{1}{2}$ the rates for irrigated land or in parganas where land is recorded as "eksakha," at "eksakha" rates according to the class of soil for the term of Settlement.

Proviso D.—Complaints regarding any insufficiency in the supply of water under this section will be made, through the revenue officials, to the Nazim, who will make such arrangements as he considers just.

37. The State has the right of enforcing the construction or repair of any irrigation work at its own expense.

38. Each number irrigated from a well or oree has been assessed at the time of Settlement, and the allotted area of the well or oree shewn in the list of wells. During the term of Settlement the well with its allotted area and the total assessment put upon it remain unchangeable, except as provided in this regulation, but the well with its allotted area may be sub-divided between sharers.

39. The owners of the well with its allotted area will pay the total assessment fixed at Settlement, whether the numbers included in the allotted area are wholly or partially irrigated.

40. The owners of any well may make a new well, or use an old one, or any other available water to help their well with its allotted area, so as to increase irrigation to the full limit of the allotted area, without extra payment, or special permission. But any increase of irrigation (except on divisions between fields as shewn on the Revenue Survey maps) outside the allotted area, owing to the sinking of such new well involves extra payment at the rates sanctioned for new wells.

41. Mistakes in allotting the area to a well, such as including fields that should have been left out, or excluding fields that should have been included, may be corrected in the annual records by the Nazim provided the corrections are signed by his own hand. And similarly he may transfer fields from one well to another.

42. If any occupant abandons a well with its allotted area, or his share in such, it will first be offered to the other sharers, if any, and in their default to any person who will agree to pay the assessment on behalf of the absent occupant on a yearly tenancy, and to vacate the land on the last day of Baisakh next after the return of the occupant, unless the well and land have been altogether resigned.

43. If no one will take a yearly tenancy the Nazim may confirm the tenancy for a period of 5 years. The name of the original occupant will not be erased from the annual "Jamabandi," but the cultivator's name will be entered below as sub-tenant.

44. A co-sharer or sub-tenant thus temporarily occupying the land, will be responsible for paying the State revenue demand year by year, but not

for arrears of revenue, and he will also be responsible that the land is given up in good condition at the end of tenancy.

45. If any person can prove on a summary enquiry before the Nazim that he has a claim against the estate of the absent occupant, and undertakes to pay the assessment entered in the Settlement records, with any arrears due, the Nazim will record his name as sub-tenant below that of the occupant.

46. The rates sanctioned for newly irrigated lands are as follows:—

Whoever constructs a new well or oree, or repairs an old one on land included in his holding at Settlement, or subsequently included in it, will pay assessment on the land irrigated from such irrigation work at the following rates for the term of Settlement :—

- (a) If the land so brought under irrigation was recorded at Settlement as "Maletee," "Eksakha" or "Jadid" land, half the irrigated rates fixed at Settlement for each class of soil in the village in which the land is situated.
- (b) If the land so brought under irrigation was recorded at Settlement as "Kadim" land, one quarter the Maletee rates fixed for each class of soil in the village in which the land is situated, but—

Proviso A.—The above concessions are only made on the understanding that no "Khatadar" abandons the cultivation or irrigation of any portion of his original holding merely to take advantage of these reduced rates.

Proviso B.—In the Sironj pargana lands irrigated in accordance with this section will be assessed if "Maletee," or "Jadid" at the time of Settlement at "Maletee" rates only, for the first three years they are irrigated, and if "Kadim," will be revenue free for the first three years, they are irrigated, after which they will be assessed at the rates laid down in this section.

47. Lands recorded at Settlement as irrigated from tanks, will pay the Settlement assessment whether the water is used or not, provided there is sufficient water in the tank. If the tank does not fill, or only fills partially or bursts, remissions will be made as provided in Sec. 35.

48. The area irrigated from tanks will be checked each year by the Patwarri, and any fresh irrigation recorded.

49. Lands irrigated from tanks constructed or occupied by the villager without State assistance will be assessed for the term of Settlement in the same way as lands irrigated by the construction or repair of wells.

50. When any person wishes to repair a well, oree or tank, not the property of the State, he will submit an application to the Nazim of the pargana who will make inquiries. If it is proved that the area newly irrigated will be increased owing to such repair, he will sanction it, but if it appears that the

application is only made to obtain remission in the rates, or that the annual repairs have been neglected, and land left unirrigated with a view to obtaining such remissions, he will refuse his sanction.

The Assessment of Fallow Land.

51. "Banjar jadid" is land that has lain fallow for not more than three consecutive years.

"Banjar kadim" is land that has lain fallow for more than three years, or that has never, so far as is known, been cultivated.

"Jadid" Fallow Land.

52. "Jadid" fallow land included at Settlement in any holding, except the State's holding, is assessed for the term of Settlement at half the rates fixed at Settlement for unirrigated land in the village in which it is situated according to the class of soil.

"Kadim" Fallow Land.

53. "Kadim" fallow land included at Settlement in any holding, except the State's holding, and "kadim" fallow not included in any holding at Settlement is assessed for the term of Settlement at $\frac{1}{4}$ the rates fixed at Settlement for unirrigated land in the village in which it is situated according to the class of soil.

This rule does not apply to the percentage of "kadim" land allowed to be revenue-free in each holding as grass "bir" under Section 56.

54. The concessions granted under these rules, regarding "jadid" and "kadim" lands, do not apply to "khatadars" who relinquish or cease to irrigate any portion of their original holding merely to benefit by such concessions.

Ranjka Remissions.

55. In the parganas of Nimbahera, Pirawa, Tonk and Aligarh, half a biswa per bigha of irrigated land is allowed to be revenue-free, on condition that "ranjka" (*i. e.*, lucerne grass or maithi) is grown thereon.

In the Chabra Pargana an allowance not exceeding two bighas of land may be made to any assami, who in the opinion of the nazim has not sufficient private grass "bir" for his plough oxen, the area so allotted being revenue-free on condition that "charri" for the cattle is grown thereon.

In Sironj, owing to the small extent of the irrigated area and the general abundance of grazing, no land is allowed to be revenue-free on account of "ranjka."

Private Grass "Birs."

56. "Khatadars" in all parganas, except Sironj, are entitled to hold revenue-free 8 bighas per cent. of the total revenue demand on their holdings as private grass "bir." This allowance includes divisions between

fields, "phirras" (standing ground for cattle and cattle runs at wells), and the land occupied by wells and threshing floors, but—

Proviso A.—As in some villages land may not be available to provide all "khatadars" with private grass "bir" on the above scale, the allotment will be made with due regard to the capabilities of the village.

Proviso B.—The allotment of private grass "bir" will be made by the village panchayat, under the supervision of the Nazim, and the panchayat will distribute the land available for grass "bir" in proportion to the revenue demand on each holding in the village.

Proviso C.—In the Sironj Pargana, the proportion of land allowed as private grass "bir" is—to "Khatadars" holding only "barani" land 8 bighas per cent. and to "khatadars" holding both irrigated and unirrigated lands, 10 bighas per cent. of the total revenue demand on the holding.

Regarding Encroachments.

57. In the case of fields held wholly or partially revenue-free, no encroachment whatever on khalsa land will be allowed.

58. Kirsani khatadars may cultivate the divisions between field recorded in their holdings, or leave them uncultivated, but no increase in the assessment will be made when divisions between fields are brought under cultivation.

Gardens and Orchards.

59. In the case of lands already granted, or that may hereafter be granted by "sanad" or "pattas" for planting gardens or orchards, the terms of such "sanads" or "pattas" with regard to assessment will be observed.

60. When grain crops or opium are grown on land taken up under a "sanad" or "patta," for gardens or orchards, such lands will be assessed at the full rates fixed at Settlement, according to the class of soil.

61. Unless specially exempted by "sanad" or "patta," when land is taken up under the terms of the Settlement for gardens or orchards, the ordinary "kharcha" cess of 2 annas in the rupee will be charged on the land revenue assessment.

62. Lands granted by "sanad" or "patta" revenue-free for the maintenance of gardens or orchards, or which may hereafter be so granted, will be revenue-free, whether cropped or not.

State Holdings.

63. State holdings comprise:—

- (a) Land not recorded at Settlement in the holding of any "khatadar," excepting the "shamlat dehi."

Alluvial Lands and Fluctuating Land Revenue.

69. Land situated in the beds of nadis, nala, and tanks will, when brought under cultivation, be surveyed annually by the patwarri and assessed at the rates fixed at Settlement.

70. The Nazim of the pargana may, however, contract with the villagers for a definite area to be paid for annually.

71. The produce of all tanks belonging to the State, such as singhara, khus, &c., will be disposed of each year as the Nazim may think fit.

Corrections of Mistakes of Area.

72. No alteration of the area or classification of soil of any field, as measured and recorded in the Settlement papers, may be made by any Nazim, except on orders received from head-quarters on report made.

73. Alterations in the record of the names of occupants, sub-tenants, mortgagees and the like will be made by the Nazim in the annual records; he will sign the correction with his own hand, and if the correction refers to an occupant, will file the written consent of the person whose name is removed, and of the person whose name is entered. A register showing all corrections made in the records of each village will be kept up, and a copy sent each year to head-quarters. No alteration of any sort will be made in the Settlement records.

CHAPTER IV.—Realization of Land Revenue.

74. The following instalments have been fixed for the recovery of land revenue which includes ain-ul-mal and mutaliq-mal:—

PARGANA:	I.	II.	III.	IV.
	1st Nov.	15th Jany.	31st March	31st May.
Nimbahera ...	2 annas.	4 annas.	4 annas.	6 annas.
Pirawa... ...	2 „	4 „	6 „	4 „
Chabra... ...	2 „	4 „	4 „	6 „
Sironj	2 „	6 „	4 „	4 „
Aligarh ...	2 „	6 „	2 „	6 „
Tonk... ...	2 „	6 „	2 „	6 „

Occupants, who cultivate only during the kharif, will pay the full assessment of the land in their holding in equal instalments on the 1st November and 15th January.

Occupants, who cultivate only during the rabi, will pay the full assessment of the land in their holding in equal instalments on the 31st March and 31st May.

Arrears of Land Revenue.

75. Arrears of land revenue due by any occupant will be a paramount charge on the holding with the exception of seed required for the land.

76. In all cases the land revenue for the current year of land used for agricultural purposes, if not otherwise discharged, will be recoverable in preference to all other claims from the crop of the land subject to the same.

77. When the crop of any land or any portion of the same is sold, mortgaged or otherwise disposed of, whether by order of a Civil Court or other public authority, or by private agreement, the Nazim of the pargana may prevent its being removed from the land until the current year's revenue of the said land has been paid, whether the date fixed for the payment of the same has arrived or not. But in no case will a crop or any portion of the same, which has been sold, mortgaged, or otherwise disposed of be detained on account of more than one year's revenue.

78. It shall be lawful for the Nazim of the pargana, in order to secure the payment of the land revenue by enforcement of the State's lien on the crop:—

- (a) to require that the crop growing on any land liable to the payment of land revenue shall not be reaped until a notice in writing has first been given to himself or to some other officer to be named by himself, in this behalf, and such notice has been returned endorsed with an acknowledgment of its receipt;
- (b) to direct that no such crop shall be removed from the land on which it has been reaped, or from any place in which it may have been deposited, without the written permission of himself, or of some other officer as aforesaid;
- (c) to cause watchmen to be placed over any such crop to prevent the unlawful reaping or removal of the same, and to realize the amount required for the remuneration of the said watchmen, at such rate, not exceeding the rate of pay received by the chaprassis on his establishment as he may think fit, as an arrear of land revenue due in respect of the land to which such crop belongs.

79. The Nazim's orders under either clause (a) or clause (b) of the last preceding section may be issued generally to all the holders of land paying revenue to the State in a village, or to individual holders merely.

If the order be general, it shall be made known by public proclamation to be made by beat of drum in the village, and by affixing a copy of the order in the panchayat house, or some other public building in the village. If it be to individual holders, a notice thereof shall be served on each holder concerned.

80. Any person who disobeys any such order after the same has been so proclaimed, or a notice thereof has been served upon him, or who abets the disobedience of any such order, will be liable, on conviction, after a summary enquiry by the Nazim, to a fine not exceeding double the amount of the land revenue due on the land to which the crop belongs, in respect of which the offence is committed.

81. The Nazim shall not defer the reaping of the crop, nor prolong its deposit unduly so as to damage the produce; and if within two months after the crop has been deposited, the revenue due has not been discharged, he may take such portion thereof as he may deem fit for sale under the provisions of this regulation applicable to sales of moveable property in realization of the revenue due and of all legal costs, and release the rest.

82. The measures described above will be relinquished if the costs lawfully incurred by the Nazim up to the time of such relinquishment are

paid, or satisfactory security furnished by a Bohra or manotidar for the payment of the revenue as the instalments are due.

83. Any sum of land revenue not paid on the appointed date is an arrear of land revenue, and the Nazim of the pargana may recover such sum, in addition to such charge, on account of interest as may be authorized from time to time by the Durbar.

84. A statement of account, certified by the Nazim, or the revenue peshkar, will be conclusive evidence of the existence of the arrears of the amount of the land revenue due, and of the person who is the defaulter.

85. An arrear of land revenue may be recovered by the following processes:—

- (a) by serving a written notice of demand on the defaulter, for which a fee of one anna per Rs. 10 will be leviable.
- (b) by forfeiture of the occupancy in respect of which the arrear is due.
- (c) by distress, and sale of the defaulter's moveable property.
- (d) by sale of the defaulter's immoveable property.
- (e) by arrest and imprisonment of the defaulter.

The said processes may be employed for the recovery of arrears of former years, as well as of the current year.

86. In any case in which the Nazim ejects an occupant, he must submit a report for the confirmation of the Durbar.

87. Before recovering arrears or ejecting an occupant, the Nazim may report for orders any case in which he considers that for any just reason the arrears may be wholly or in part remitted or suspended. A well falling in, the bread-winner or the plough bullocks dying, or any other serious loss might be a reason for allowing a part of the assessment to stand over. No remittance or suspension should, however, be recommended when an occupant permanently retains in his holding more land than he has the means of working.

88. At any time after an arrear becomes due, the defaulter may be arrested and detained in custody by the Nazim, if considered necessary, for a period not exceeding ten days, unless the revenue due, together with the penalty or interest and the costs of arrest and of notice of demand, and the cost of his subsistence during detention, is sooner paid.

89. If on the expiry of ten days, the amount due by the defaulter is not paid, he may be sent by the Nazim with a warrant for imprisonment in the pargana jail.

Procedure in respect of sales.

90. When any sale of either moveable or immoveable property is ordered under the provisions of this regulation, the Nazim will issue a notice in the vernacular language of the district, specifying the time and place of sale, together with full particulars as to the value of the property to be sold.

A written notice of the intended sale shall be affixed in the Nazim's office, and in some public building in the village in which the property was seized.

Sales will be made by auction by such persons as the Nazim may direct, and bids made in writing and received before the date fixed for the auction will be accepted.

91. No such sale shall take place on a general holiday recognized by the State, nor until after the expiration of at least 30 days in the case of immoveable property, and 15 days in the case of moveable property, from the latest day on which any of the said notices shall have been affixed.

92. The sale may from time to time be postponed for any sufficient reason.

93. If the arrear in respect of which the property is to be sold, and all other charges legally due, be paid at any time before the date fixed for the sale, or if security is given for the payment of the same, the sale shall be stayed.

94. After a sale of any occupancy has been completed, the Nazim will put the person declared to be the purchaser into possession of the land included in such occupancy, and shall cause his name to be entered in the revenue records as occupant in lieu of the defaulter, and shall grant him a certificate of purchase.

95. If any claim is set up by a third person to moveable property attached under the provisions of this regulation, the Nazim will admit or reject the claim on a summary enquiry held after reasonable notice.

96. The following property is exempt from attachment or sale under the provisions of this regulation:—

- (a) An occupant's dwelling-house, plough bullocks sufficient for the land left to him, seed and agricultural implements in proportion.
- (b) Ordinary clothes in daily wear, necessary cooking pots, and sufficient food, not being the crops of the current year, for the occupant and his household.

CHAPTER V.—Grazing rights.

97. The right of grazing on free pasturage lands shall extend only to the cattle of the village or villages to which such lands belong, or have been assigned, and shall be regulated by rules to be from time to time either generally or in any particular instance prescribed by the Durbar.

98. No person shall be allowed to prevent cattle from watering at places in, or from passing through, shamlat land.

CHAPTER VI.—Boundary marks.

99. The boundaries of all villages have been fixed at Settlement, and masonry or stone boundary marks have been erected at all points where the boundaries of three villages meet.

100. Intermediate points on the boundary line of each village were fixed when the survey was made, and it is the duty of the patel and patwarri of the village to see that boundary marks are maintained at these points.

101. In the same way the boundaries of fields in khalsa villages were fixed when the survey was made, and it is the duty of the occupant in whose holding a field is recorded to see that these marks are permanently maintained. Assamis must keep up a certain strip of unploughed land between their fields so that the limits of each may be defined, and they must place boundary stones where there is any deviation from a straight line.

102. The Nazim of the pargana may cause to be constructed or repaired boundary marks of villages or survey numbers, whether cultivated or uncultivated, and to assess all charges incurred thereby on the occupants of the land or others having an interest therein.

103. If such boundary marks are not constructed or repaired within the period fixed by an order from the Nazim published in the village or tendered to an occupant, the Nazim will have them constructed or repaired, and assess all charges incurred thereby on the occupants responsible.

104. Any person convicted after a summary enquiry before the Nazim, revenue peshkar, or tahsildar of wilfully erasing, removing or injuring a boundary mark will be liable to a fine not exceeding Rs. 50, for each mark so erased, removed or injured.

105. One half of each fine imposed under section 104 may be awarded by the Nazim, if he thinks fit, to the informer, if any, and the other half will be chargeable with the cost of restoring the mark.

CHAPTER VII.—Procedure of Revenue Officers.

106. Revenue Officer means every officer of any rank whatsoever appointed under any of the provisions of this regulation, and employed in or about the business of the land revenue, or of the survey assessment accounts or records connected therewith.

107. Every revenue officer, not lower than the rank of girdawar kanungo, will have power to summon any person whose attendance he considers necessary either to be examined, as a party, or to give evidence as a witness, or to produce documents for the purposes of any enquiry which such officer is empowered to make.

All persons so summoned will be bound to attend either in person or by an authorized agent as such officer may direct, provided that the Durbar may from time to time exempt such persons, as it may deem fit, from attendance under this section.

108. All persons so summoned will be bound to state the truth upon any subject respecting which they are examined or make statements, and to produce such documents and other things as may be required.

109. Every summons or notice will be in writing, in duplicate, and will state the purpose for which it is issued. It will be signed by the officer issuing it, and if he have a seal will also bear a seal.

It will be served by tendering or delivering a copy of it to the person summoned, or for whom the notice is intended, or if he cannot be found by affixing a copy of it to some conspicuous part of his usual residence.

110. If the person summoned reside in a district of another State, the summons will be served through the hukim of such district, or if he refuse, through the Political Agent.

Formal Enquiry.

111. In all formal enquiries the evidence will be taken down in full, in writing, in the language in ordinary use in the district, by or in the presence and hearing and under the personal superintendence and direction of the officer making the investigation or enquiry, and will be signed by him.

112. Every decision after a formal enquiry will be written by the officer passing the same in his own handwriting and will contain a full statement of the grounds on which it is passed.

Summary Enquiry.

113. In summary enquiries the presiding officer will himself, as such enquiry proceeds, record a minute of the proceedings in his own hand, embracing the material averments made by the parties interested, the material parts of the evidence, the decision, and the reasons for the same.

114. Every hearing and decision, whether in a formal or summary enquiry, will be in public, and the parties or their authorized agents will have due notice to attend.

115. In all cases in which a formal or summary enquiry is made, authenticated copies and translations of decisions, orders and the reasons therefore, and of exhibits, will be furnished to the parties, and original documents used as evidence will be returned to the rightful owner and his receipt taken.

116. Whenever it is provided under this regulation that a defaulter or any other person may be arrested, such arrest will be made upon a warrant issued by any officer competent to direct such person's arrest.

117. Any revenue officer may at any time, and from time to time, enter, when necessary for the purposes of measurement, fixing or inspecting boundaries, classification of soil, or assessment, or for any other purpose connected with the lawful exercise of his office under the provisions of this regulation any lands or premises whether belonging to the State or to private individuals, and whether fully assessed to the land revenue or partially or wholly exempt from the same. Provided always that no building used as a human dwelling shall be entered, unless with the consent of the occupier thereof, without a notice having been served at the said building not less than seven days before such entry; and provided also that in the case of buildings of all escriptions, due regard shall be paid to the social and religious prejudices of the occupiers.

Appeals and Revision.

118. In the case of all revenue officers subordinate to the Nazim of a pargana, an appeal shall lie from any decision or order passed by them to the Nazim. An appeal from any order or decision passed by an officer of equal or superior rank to that of a Nazim shall lie to the Niabat and thence to the Council, whose order or decision will when, necessary, be forwarded to the Durbar for sanction.

119. No appeal will lie unless it be brought before the expiration of ninety days from the date on which a copy of the order or decision appealed against was delivered to the appellant.

120. Every petition of appeal shall be accompanied by the decision or order appealed against or by an authenticated copy of the same.

121. The appellate authority may either annul, reverse, modify or confirm the decision or order of the subordinate officer appealed against, or he may direct the subordinate officer to make such further investigation, or to take such additional evidence as he may think necessary, or he may himself take such additional evidence.

122. In any case in which an appeal lies, the appellate authority may, pending decision of the appeal, direct the execution of the decision or order of the subordinate officer to be suspended.

123. The Durbar, the revenue member of the State Council and Nazims of parganas may call for and examine the record of any enquiry or the proceedings of any subordinate revenue officer for the purpose of satisfying themselves as to the legality or propriety of any decision or order passed, and as to the regularity of the proceedings of such officer. If in any case it appear to them that any decision or order or proceedings so called for should be modified, annulled, or reversed they may pass such order thereon as they deem fit.

CHAPTER VIII.—Duties of Revenue Officers.

124. The Nazim of each pargana is the chief revenue officer of the pargana and is responsible for the proper control and administration of the pargana in all matters connected with the land revenue.

125. The Nazim of the pargana is responsible for the collection of the land revenue in accordance with the provisions of the regulation, but it is his duty to report to the Durbar whenever in his opinion a suspension or remission of land revenue in the whole or a portion of his pargana is advisable.

126. The Nazim will supervise and control the revenue officers under his authority and will report to the Niabat any case in which they act contrary to the rules in force.

127. The Revenue Peshkar is subordinate to the Nazim and will carry out his orders in all matters connected with land revenue.

128. In the absence of the Nazim from the pargana the Revenue Peshkar will represent him in all revenue matters.

129. The reports of all officers subordinate to the Revenue Peshkar will be submitted through him to the Nazim, and all orders issued by the Nazim to the subordinate revenue officers will be communicated to the Revenue Peshkar.

130. All the tahsildars, the Registrar kanungo and girdawars are subordinate to the Revenue Peshkar and will carry out his orders.

131. The kanungo girdawars will not be responsible for nor will they be employed in the collection of land revenue or of distributing and recovering "takavi" advances of money or grain. The tahsildars will be responsible for these duties.

132. The Registrar and girdawar kanungos will be responsible for the proper preparation and maintenance of the patwarris maps and records and for the proper performance of the patwarris duties. The Registrar Kanungo will check all the papers sent to the nizamat by the girdawars and patwarris and sign them.

133. The girdawar kanungos will personally test the accuracy of the maps and records by a field inspection to be made three times each year.

1st, at the beginning of the agricultural year; 2nd, when the kharif crops are standing; and 3rd when the rabi crops are standing.

134. They will reside, when practicable, in some village included in their circle, and will not leave their circle without the permission of the Revenue Peshkar, except when they are summoned on State business.

135. Tahsildars and girdawar kanungos will submit at the end of each month through the Revenue Peshkar to the Nazim a diary shewing where they were each day and what work they were engaged in.

136. The tahsildars and girdawars will assist each other in all matter connected with the revenue and will not obstruct each other.

137. All the patwarris in a circle will be subordinate to the kanungo girdawar of the circle and will carry out his orders submitting their reports connected with the girdawar's work through the girdawar, and reports connected with the tahsildar's work through the tahsildar.

138. When a patwarri is required in connection with the payment of the revenue demand, he will be summoned through the girdawar.

139. The duties of patwarris have been defined in special rules, a Hindi copy of which must always be in the possession of each patwarri.

140. Every patwarri is responsible for the proper maintenance and correction of the maps and records of his circle in accordance with these rules.

141. Each patwarri must reside permanently in one of the villages included in his circle, and will not leave his circle without the permission of the Girdawar of the circle except when summoned on State business.

142. The following are the duties of every Patel:—

1. To use his best endeavours to maintain and extend the cultivated and irrigated area in his village.
2. To report through the patwarri any damage done to the crops by hail, locusts, frost, want of or excess of rain, &c.
3. To report sickness, epidemics or cattle-disease.
4. To protect all boundary marks and divisions between fields, and report through the patwarri when any mark has been removed or requires repair.
5. To assist in realizing land revenue from assamis in his village, as each instalment falls due.
6. To report through the Patwarri if he has reason to believe that any assami intends to abscond without paying the revenue demand due from him.
7. To assist in the distribution and recovery of Takavi advances.
8. To report to the Police any raid which is made in the neighbourhood of his village, to assist in capturing the offenders and recovering stolen property.
9. To endeavour to prevent and put a stop to disturbances and quarrels in his village.

10. To inform the Police of any bad character living in the village, or coming to it from another village, and to keep such persons under supervision.
11. To keep under supervision any resident of the village who is released from prison and returns to his home, and to report any misconduct on his part to the Police.
12. To submit all reports called for by the revenue officers of the State.
13. To report to the patwarri the names of müafidars and other occupants who die or leave the village and all transfers and relinquishments of land.

CHAPTER IX.—“Haqs” of Patels and others.

143. The “haqs” and privileges to which patels, “sigahdars” bhoomias, chowkidars, village servants and others are entitled in each pargana have been defined under the Settlement, and whenever proved will be upheld.

144. The following general “haqs” will be recognized and paid by the State as distinguished from those which are not entered in the revenue accounts.

- (a) Except in the parganas of Tonk and Aligarh (in which cash haqs at various rates already exist) one rupee per cent. on the total land revenue demand of the village will be granted as haq Patelai.
- (b) In addition to this any patel or body of patels, who before the beginning of the agricultural year, *viz.*, 1st September accept responsibility for the full payment of the land revenue demand of a village will be entitled to 3 per cent. on that demand if collected in full.

If the Durbar sees fit in the case of any pargana or village the rate per cent. may be increased.

**CHAPTER X.—Regarding mortgage and sale of land,
irrigation works, trees and buildings.**

145. The State is the "Malik" of the soil, but no loss will be suffered by the State if Assamis are allowed to sell or mortgage.

146. Any person who has an inherited right to cultivate and irrigate land may sell or mortgage such right with the Nazim's permission.

147. Any person who has inherited any irrigation work or building constructed, not at the State expense, or who has legally obtained, or who has himself constructed such irrigation work or building, will be entitled to sell or mortgage the same with the Nazim's sanction.

148. In the same way any person who has inherited or planted trees on land included in his holding will be allowed to sell or mortgage such trees.

149. No khatadar who has been granted land at reduced rates or free of assessment for any special duty or religious purpose will be entitled to sell or mortgage his rights in such land.

150. No khatadar will be allowed to sell or mortgage the whole of his holding.

151. No khatadar will be allowed to sell or mortgage any number of his holding for expenditure on weddings or funerals.

CHAPTER XI.—Regarding the founding of new villages.

152. New villages will not be founded within the limits of any village in which the uncultivated area does not exceed one-third of the whole culturable area, but endeavours will be made to induce the villagers to bring under cultivation as much of the waste land as can be taken up without interfering in any way with the amount required for grazing purposes.

153. If the extent of such uncultivated but culturable area exceed one-third of the total area of the village, and the village community are unable, either for want of means or cultivators, to bring such culturable area under the plough within a reasonable period, a new village will be founded, but in no case will the area of such new village be less than 1,000 survey bigahs.

154. If the new area to be brought under cultivation by the founding of a new village be less than 1,000 survey bigahs, the new village will be treated as a hamlet of that within the limits of which it has been founded.

155. The terms granted by the Durbar for the assessment of land included in the limits of new hamlets and villages, whether settled before or after the introduction of the Settlement, will be strictly observed.

156. After the introduction of the Settlement the Durbar will grant such terms as from time to time may seem expedient for the founding of new villages.

157. When land granted for the founding of a new village or hamlet has not been brought under cultivation in accordance with the terms sanctioned, the Durbar will be at liberty to inflict such punishment or such fines on the patel and assamis of such new village or hamlet as the circumstances of the case require.

158. The Nazims of parganas will be responsible that only respectable persons are granted permission to found new villages or hamlets.

Draft of proposed Tuccavi Rules.

For land improvement, purchase of cattle, and advances of seed, &c.

1. At the commencement of the financial year the Nazim of each pargana and the Superintendent of the Settlement will be informed of the amount which will be available for loans during the year for each pargana.

(A) For land improvement and (B) for purchase of cattle, and advance of seed, &c.

2. If an additional grant is required under head A or B for any pargana, owing to exceptional circumstances, the Nazim of the pargana in consultation with the Settlement Officer will forward an application for the sum required to the proper authority, with full explanation of the grounds for such application, but until such additional grant is sanctioned the original grant shall not be exceeded.

3. When the amount allotted for one pargana is in excess of its requirement, it may, with the sanction of the proper authority, be transferred to another on receipt of such application.

(A) Land improvement loans.

4. An application for a loan for land improvement may be made to any revenue officer of or above the rank of Peshkar.

5. Subject to the provisions of these rules the Nazim of any pargana may sanction a loan not exceeding Rs. 250 to any one applicant for purposes specified in the rules, and shall advance the money in a lump sum or in instalments as may seem advisable. Applications for loans exceeding Rs. 250 will be forwarded by the Nazim with the opinion of the Settlement Officer for the sanction of the proper authority.

6. The application for a loan, if made in writing, should be as nearly as possible in Form A.

If an oral application is made, the officer to whom it is made, shall cause it to be recorded as nearly as possible in that form.

7. The officer to whom the application is made shall either make an enquiry himself, or cause one to be made by a revenue officer not below the rank of Peshkar, for the purpose of ascertaining the particulars on the reverse of Form A.

If in the opinion of the officer to whom the application is made, it is expedient that public notice of the application should be given, he will publish

a notice thereof by fixing it up in a conspicuous place in the village or in each village which will be affected by the proposed improvement.

8. When the value of the applicant's interest in the land to be improved is sufficient to cover the loan, collateral security need not be required. Personal security may be accepted when the sureties are a body of village residents who bind themselves jointly and severally to the State for the repayment of the whole amount payable in respect of the loan. Moveable property should never be accepted as security.

9. The date for the repayment of the first instalment shall be fixed with reference to the time when the improvement will begin to yield a return, and the dates for the repayment of subsequent instalments, and the amount of each instalment shall be fixed with reference to the annual profit likely to accrue from the improvement. The dates for repayment will always be arranged so as to coincide with those for payment of land revenue instalments.

10. In the case of loans not exceeding Rs. 250 sanctioned by Nazims of parganas the date for the repayment of the last instalment shall not exceed 5 years from the date on which the loan or the last instalment of it was granted.

11. In the case of loans exceeding Rs. 250, such as those for the construction of large "pakka" wells, and the construction or repair of tanks, the date for the repayment of the last instalment shall not exceed 15 years from the date on which the loan or the last instalment of it was granted.

12. On completion of the enquiry and verification of the security, the officer to whom the application was made may sanction the loan himself, if empowered to do so, otherwise he shall forward the application with his report to the proper authority for sanction.

13. An order granting a loan shall be in Form B (hereto annexed) and shall be signed, or marked by the applicant in the presence of two witnesses, as a token that he understands and agrees to the conditions contained therein.

14. When the sureties (if any) whom the applicant is required to furnish, give personal security only, the bond to be executed by them shall be in Form C hereto annexed.

15. When immoveable property is required to be furnished as collateral security, the security bond shall be in Form D hereto annexed.

16. A copy of the order granting a loan shall be given to the applicant, and payment of the loan, or when the loan is advanced in instalments, of each instalment of the loan, shall be made at the Nizamat of each pargana, on its presentation a receipt being taken for the amount and the Patwari of the circle informed of the same.

17. The rate of interest shall be one pie per rupee per month, i.e., one anna in the rupee or $6\frac{1}{4}$ per cent. per annum—but *Proviso (a)*. In special cases, with the sanction of the proper authority, a loan may be sanctioned at a lower rate of interest, or without interest.

Proviso (b). If an instalment of principal is not repaid when it falls due, the interest charged on it shall be at the rate of $6\frac{1}{4}$ per cent. per annum from the date of its falling due to the date of repayment.

18. In the case of failure of crops or other exceptional calamity, the Nazim of the pargana shall report the circumstances to the proper authority with a view to the suspension of one or more instalments.

19. When any portion of a loan granted under these rules is found to be irrecoverable, a special report shall be made by the Nazim of the Pargana to the proper authority.

20. The revenue officers of the pargana, not below the rank of Peshkar, shall from time to time examine the progress of works for which loans have been granted.

21. As soon as possible, after a loan has been granted, the Nazim of the pargana shall cause the Patwarri of the circle in which the land to be improved is situated to copy into his “Roznamcha” the number and date of the order granting the loan, the manner in which it is to be advanced, the nature of the improvement for which it has been granted, and the time by which the improvement is to be completed.

22. It shall be the duty of the Patwarri to enter sums due and paid on account of land improvement loans in the “Rasid bahis” in the same way as he enters land revenue instalments.

23. At the end of the agricultural year the Patwarri of each circle shall submit through the Peshkar Mal a statement (Form E annexed) showing the progress of each improvement work in his circle and the sum expended on it.

24. A tabulated statement of the Patwarris’ returns for the whole pargana shall be prepared by the Nazim of each pargana on Form E annexed, one copy of which will be forwarded to the proper authority at Tonk, and one copy to the Settlement Officer.

25. Each Patwarri shall keep a register in Form F in which the dates and amounts of advances made and repaid, with the interest due, and costs (if any) shall be entered by him; a separate page being given to the accounts of each loan.

26. A register in the same form shall be kept at the Nizamat treasury, for the whole pargana, prepared from the Patwarri’s registers.

(B) *Loans for the purchase of cattle, manure or agricultural implements and advances of seed and food grains.*

27. An application for a loan of the above description may be made to any revenue officer of or above the rank of Patwarri, who shall pass orders on it himself if empowered to do, or if not so empowered shall forward it with his recommendation to the proper authority.

28. No special form of application is required, but the applicant should state clearly in his petition the sum required (if the application is for a loan of money) the purpose for which it is required and the dates and amounts of instalments in which he proposes to repay it, or the description and amount of seed or food grain he requires.

29. All applications for loans of the above description shall be forwarded to the Peshkar Mal who shall submit them with his recommendation to the Nazim of the pargana.

30. Subject to the provisions of these rules the Nazim of each pargana may sanction a loan not exceeding Rs. 50 to any one applicant for purposes specified in the rules, and shall fix the dates and amounts of the instalments by which it shall be repaid so as to coincide with the dates for payment of land revenue instalments, with the proviso that the total amount of the loan with interest and costs (if any) must be repaid within 2 years from the date on which the loan was granted.

Applications for loans exceeding Rs. 50 shall be forwarded by the Nazim with his recommendation to the proper authority at Tonk.

31. The amount of seed and food grain, which may be advanced to each applicant, is left to the discretion of the Nazims of parganas, but all amounts so advanced must, if possible, be recovered in cash or kind from the next crop produced at the same time that the land revenue instalment is paid.

32. No security shall be required for loans of the above description, but the officers receiving and forwarding the applications for them, shall satisfy themselves, as far as possible, of the *bona fides* of the applicant before recommending sanction.

33. An order granting a loan of the above description shall be in Form B (hereto annexed), and shall be signed or marked by the applicant in the presence of two witnesses as a token that he understands and agrees to the conditions contained therein.

34. A copy of the order shall be given to the applicant, and on its presentation at the Nizamat the amount of money or grain sanctioned shall be paid to him, and his receipt taken.

The Patwarri of the circle shall at once be informed of the transaction, and he shall copy into his "Roznamcha" the number and date of the order granting the

loan, the purpose for which the grant is made, and the dates and amounts of repayment.

35. The rate of interest shall be the same as that on loans for land improvement with the provisos noted in Section 7.

36. In the case of failure of crops or other exceptional calamity, or when any portion of a loan granted under these rules is found to be irrecoverable, the Nazim of the pargana shall report the circumstances to the proper authority with his recommendations.

37. It shall be the duty of the Patwarri to enter all amounts of money or grain due or recovered on account of loans for the purchase of cattle and agricultural implements or advances of seed and food grains in the "Rasid Bahis," in the same way as he enters land revenue instalments.

He shall also report to the Nazim, through the Peshkar Mal, any instance in which such loan has been misapplied.

38. Each Patwarri shall keep a register (Form F annexed) in which the dates and amounts of advances of money or grain made and repaid with the interest due and costs (if any) shall be entered by him.

39. A register in the same form shall be kept at the Nizamat for the whole pargana prepared from the Patwarri's registers.

40. At the close of the financial year a summary of this register shall be prepared showing the totals for the whole pargana of columns 5 to 23 inclusive, one copy of which will be forwarded to the proper authority at Tonk, and one copy to the Settlement Officer.

Form A. (In Hindee.)

Application for Land Improvement Loan.

Pargana.	Village.	Name of applicant, father's name, caste and residence.	Amount of loan required.	Nature of security offered.	Nature of proposed improvement.	Situation of the land to be improved.	Applicant's rights in the land.	Proposed dates and amounts of repayments.

Applicant's signature or mark.

Witnesses
signatures.

Note—

- (i) The State will advance money to cultivators for the construction or repair of wells or tanks, the reclamation of waste, or any work by which the value of the land will be permanently increased.
- (ii) Application for a loan may be made to any revenue officer not below the rank of Peshkar on the above form free of stamp duty.
- (iii) The rate of interest will be one pie per rupee per month (*i.e.*, $6\frac{1}{4}$ per cent. per annum), and instalments will be distributed over several years.
- (iv) If the value of the applicant's interest in the land to be improved is sufficient to cover the loan, collateral security will not ordinarily be required. When collateral security is required the personal security of a body of village residents, jointly and severally bound to the State for the payment of the whole amount payable in respect of the loan will be accepted.

Particulars to be filled in by Inspecting Officers :—

- (i) Field numbers and area of land to be improved.
- (ii) Security—
 - (a) State the value of the land itself or of applicant's interest in it.
 - (b) If personal security is offered, state the names and status of sureties.

(c) If property other than the land itself is offered as security, state the nature of the property, its value, and any pre-existing encumbrances.

(iii) The improvement—

(a) Its estimated utility and value.

(b) Objections, if any, of third parties.

(c) Date on which it will begin to yield profit.

(iv) Repayment—

(a) Suitable date for 1st instalment with reference to *iii* (c).

(b) Proposed instalments and dates of payment of each.

(v) Recommendations of Inspecting Officer.

REGISTER or LAND improvement loans and advances of grain, &c.

Draft Rules for the guidance of Patwaris.

I.—The Patwari shall keep up the following records :—

- (1) The Field map.
- (2) The Roznamcha or diary.
- (3) The Khasra or field book, with the following compilations—
 - (a) Milan Khasra.
 - (b) Kharif Jinswar.
 - (c) Rabi Jinswar.
 - (d) Hot weather Jinswar.
- (4) The Jamabandi, with accompanying records, viz.—
 - (a) Statement showing increase and decrease of irrigated area.
 - (b) Statement showing increase and decrease of cultivated area.

II.—Blank volumes, or sheets of records, will be given to the Patwari, and returned by him under the following arrangements :—

Name of Register.	Month in which blank register to be received from Kanungo.	Date on which register is to commence and end.	Date of filing.	Whether copy to be filed or original.	Whether to be kept or destroyed.	
Roznamcha ...	May	31st July, after 4 years..	Original ...	To be kept by the Patwari for four years and then brought to the Tahsil to be destroyed.	
Khasra ...	Do.	31st July, after one year.	Do. ...	To be kept by the Patwari for one year and then brought to the Tahsil for transmission to the Sadr, where it shall be kept for the term of settlement.	
Milan Khasra ...	Do.	1st June ...	Do. ...	To be kept in the Tahsil and destroyed one year after completion of the Kanungo's register.	
Kharif Jinswar Rabi Jinswar ...	Do.	1st March ...	Do. ...	Ditto	ditto
Hot weather Jinswar.	Do.	1st June ...	Do. ...	Ditto	ditto
Jamabandi ...	Do.	15th July ...	Copy ...	To be kept at the Tahsil for three years and then at the Sadr for the term of settlement.	
Statement A. ...	Do.	15th June ...	Do.	
Statement B. ...	Do.	Do. ...	Do. ...	To be kept at the Tahsil for three years and then at the Sadr for the term of settlement.	

Of these records, the diary or Roznamcha shall be issued in bound form, and with each of its pages numbered and stamped with the Cutcherry stamp.

III.—The Patwari shall keep in safety, and in good condition, copies of settlement records, or of any papers which he may be required by these rules to keep, or which may be made over to his charge by the District authorities.

Field map.

IV.—Every Patwari shall be furnished with a copy of the settlement map of his villages, or, if no copies are available, shall make a tracing of the map in the settlement file. This copy shall be altered by him from time to time as required, alterations being marked in red ink.

V.—The annual correction of the village map shall be an essential part of the Patwaris' duties. This correction includes the boundaries which may have been removed and the marking of boundaries which have been laid down since settlement.

VI.—The correction of the map will ordinarily be effected in the course of the annual field to field inspection required for writing up the Khasra (see Rule XVIII.), but in places where the corrections are very numerous, the Patwari must make a special survey, either before or after the period fixed for his field inspection.

VII.—When the corrections on a map have become inconveniently numerous, the Patwari shall make a clean tracing on which he shall enter field boundaries as they are at the time, omitting boundaries removed since settlement, and entering any boundaries which have been newly laid down. In this case the old map shall be dated and filed with the papers of the year.

VIII.—Every plot on the map must bear a distinct number. In the case of plots which have remained as they were at settlement, the settlement number will be entered. Plots formed by sub-division since settlement will continue to bear the settlement number of the original plot, but will be distinguished by a serial number of their own written under the settlement number, thus $\frac{2}{1}$, $\frac{2}{2}$, etc.

Plots formed by the union of two or more plots, or parts of plots, separate at settlement will bear the settlement numbers of all the plots from which, or from parts of which, they have been formed, connected by a hyphen, thus 25-26,

The Roznamcha.

IX.—The Roznamcha is the book in which occurrences relating to the duties of a Patwari are to be entered day by day.

X.—Every Patwari shall keep one Roznamcha for the circle; if he has one or more assistants, each will keep a separate Roznamcha.

XI.—The Patwari shall enter briefly each day the name of the village in which he has been engaged, and the work which he has done, or the reason why he has done no work. If he has been engaged on field inspection, he shall note from and to what numbers he has inspected. If he was prevented

from working by attendance on any official, or in any court, this fact shall be noted and the entry attested by the official or court.

XII.—In addition to the above facts the following occurrences shall be noted on the day on which they come to the Patwari's notice.

- (1) Deaths of Khatadars, and all mortgages, sales or other transfers which involve a change in the register of Khatadars.
- (2) Deaths of Muasidars, Riayatdars, and other privileged holders of land from the State.
- (3) Cases of encroachment on Nazul land, or any waste land or forest belonging to the State.
- (4) Cases of the cultivation of land occupied by groves.
- (5) Infringement of the condition under which any grant of land is held from the State.
- (6) Destruction or decay of boundary marks, or alteration of village boundaries.
- (7) Calamities such as hail, locusts, fire, flood, frost, cattle disease or epidemic.
- (8) Emigration or settling of cultivator.
- (9) The visit of any inspecting official to the circle.

XIII.—The Patwari shall at the close of each month enter in his Roznamcha the general condition of the crops of his circle; stating whether they are good or injured by deficient or excessive rain, frost, blight or insects, &c., which information he shall obtain by careful enquiry from the cultivators and by personal inspection.

XIV.—The Patwari shall obtain from the Kanungo, and from the Peshkar mal an entry in his Roznamcha of all orders and instructions which they may communicate to him, or shall write them in their presence and obtain their signatures thereto.

XV.—The Patwari must invariably prefix to each entry a separate serial number in large and clear figures. Each entry shall be closed by an asterisk, and no blank line shall be left between two consecutive entries.

XVI.—The Roznamcha shall be issued bound in volumes, each volume ordinarily containing not more than 100 pages. The diary of each year shall commence on the 1st June, and shall close on the 31st May. It shall be kept by the Patwari for four years from the date on which it is closed and then brought to the Tahsil to be destroyed.

The Khasra or Field Book.

XVII.—The Khasra is the record in which the circumstances of each field are to be recorded. The fields shall be entered in serial order, as numbered on the field map. There shall be a separate Khasra for each village.

XVIII.—A Khasra is to be prepared each year. It is to be written up in the field, and the entries are to represent the result of local inquiry, and actual inspection on the part of the Patwari.

XIX.—The form of Khasra shall be as below:—

KHASRA.

LAND DETAILED AT SURVEY.		REMARKS.					
SITUATION.	Cultivated.						
		Kind of Crop cultivated.					
			18				
		Total.					
		Millet.					
		Eksabkha.					
		Doree or Tanke.					
		Ghati.					
		Cultivable.					
		Uncultivable.					
		Area in Local Bigbas.					
		Area recorded at Survey.					
		North, South.					
		East, West.					
		Class of soil.					
		Name of cultivator, father's name, caste and residence.					
		Name of occupant, father's name, caste and residence.	4				
		Description of land.	5				
		Khasra number.	1				

XX.—No area is to be omitted from the Khasra. Every plot, whether cultivated or not, is to be entered.

XXI.—The tour of inspection for the preparation of the Khasra shall commence so soon as the cold weather sowings have been completed. The date shall be specially fixed for each Pargannah.

XXII.—The number of Khasra entries which a Patwari shall ordinarily write up in a day shall be fixed for each Pargannah.

XXIII.—In villages where sugarcane and hot weather crops (*i.e.*, crops sown between January 1st and June 1st) are grown, the Patwari will make a second tour of inspection, commencing on the 15th April.

XXIV.—Entries in the Khasra must be according to actual facts. If any entry is disputed, the Patwari should mark the number with a cross, and leave the disputed entries blank, reporting the case to the Peshkar mal, who will dispose of the dispute if he can, and cause the entries to be filled in under his signature. In the event of his being unable to do so, he shall report the matter for orders.

XXV.—During every tour the Patwari must carry his last year's Khasra with him for the purpose of comparison. A circle must be drawn round any entries which differ from those in the preceding year.

XXVI.—If land is lost by diluvion, a note to that effect shall be made in the remark column opposite the numbers of the fields affected.

XXVII.—If fresh land is added to a village, the series of Khasra numbers will be carried on, and the fresh land recorded under new numbers.

XXVIII.—Printed Khasra forms will be issued according to the size of the village. The Khasra of each year is to commence on the 1st June and shall close on the 31st May. No copy of the Khasra will be required, the original Khasra will be kept by the Patwari for one year, and filed in the Tahsil on or before the 31st July of the year following that in which it was completed, but the Patwari shall, before filing it, rewrite any sheet badly written, or full of corrections, the original being then filed with the copy attached.

The Khasra shall be retained at the Tahsil for a year, and then at the Sadr for the term of settlement.

Khasra compilation (Nakshajat Khasra).

XXIX.—Two statements will be compiled from the Khasra:—

- (1) The Milan Khasra or comparative statement of area, and
- (2) The Jinswar or crop statement.

XXX.—The Milan Khasra shall be filed by the Patwari by or before the 1st June following the year to which it relates. Loose forms will be issued, which the Patwari will fill up, and file in original at the Tahsil. The statement will be destroyed one year after compilation of the Kanungo's registers from it.

XXXIV.—The Jinswar is a statement showing the area under each kind of crop. The form will vary according to the crops grown in each Pargannah. In the first column will be shewn the number of the page in the Khasra. Then will follow separate columns for each class of crop or combined crops grown in the Pargannah. These columns will be sub-divided when necessary into irrigated and unirrigated. A specimen is given below :—

Crops grown in the Kharif, hot weather, or rabi.

Page of Khata.	Name of crop.		REMARKS.							
	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.

XXXV.—For the Jinswar statement loose forms will be issued. The Patwari shall file the Jinswar Kharif and Jinswar Rabi not later than March 1st, and the hot weather Jinswar not later than June 1st. They will be destroyed one year after the compilation of the Kanungo's registers from them.

THE JAMABANDI OR RENTROLL.

XXXVI.—The Jamabandi is the record in which is separately shewn each holding of every cultivator with the assessment, collections, and arrears for the year ending May 31st. Under the Summary Settlement the form will vary in the different Pargannahs. The form sanctioned for each Pargannah is given below :—

XXXVII.—The order in which holdings shall be entered shall be as in the settlement records.

XXXVIII.—When the holdings have been completed, the remainder of the village area shall be entered in the following order :—

- (1) Groves.
- (2) Land occupied by tree forest.
- (3) „ „ scrub jungle and grass.
- (4) „ „ hills and rocks.
- (5) „ under water.
- (6) „ occupied by roads and buildings.

XXXIX.—In drawing up the Jamabandi the Patwari shall make as much use as possible of cultivator's Rasid Bahis (*see Rules XLIII. to XLVIII.*).

XL.—There will be a separate Jamabandi for each village unless it has been divided into two or more mahals, in which case there shall be a separate Jamabandi for each mahal.

XLI.—Two copies of the Jamabandi shall be prepared; one copy shall be filed in the Tahsil on or before July 15th, the other copy shall be retained by the Patwari.

XLII.—The State copy of the Jamabandi shall be kept in the Tahsil for three years, and then transmitted to the Sadr where it shall be kept for the term of Settlement.

XLIII.—Statements (*a*) and (*b*) regarding the increase and decrease of the irrigated and unirrigated area in each village during the year with increase and decrease of revenue resulting, will be prepared from the Jamabandi and forwarded to the Peshkar mal on the 15th June.

The Peshkar mal shall forward them to the Tahsil with an abstract of each statement for the whole Pergannah by 1st July.

These statements shall be kept at the Tahsil three years and then at Sadr for the term of Settlement. The statements shall be in the following form:—

Statement showing Increase and Decrease of Irrigated Area and Revenue derived from it.

Pargannah.
Village.

Sambar.

Statement of increase and decrease of unirrigated cultivated area and land revenue.

Village of

Par'gannah

Sunday.

XLVII.—When entering sums due, if no objection is raised, the Patwari will note in column I. the word "Kabooli." If, however, there is any doubt or objection, he shall enter in the same column the word "Uzari."

XLVIII.—When a Patwari goes to a village in his circle, and it appears from the statement of any Khatadar that he has paid money to the Patel on account of any State demand, or is prepared to pay it, the entry regarding the sum shall be made in the Rasid bahi in the presence of the Khatadar and the Patel.

XLIX.—If the money is recovered or paid in the presence of the Patwari himself, the words in the Patwari's presence shall be entered in column 10 of the Rasid bahi. If the money is not actually paid in the presence of the Patwari, but the payer and payee both admit the transaction, the word "Ikbali" shall be entered in that column.

L.—The Patwari shall record in his cash account all sums credited in Rasid bahis.

APPENDIX A.

Uncollected Land Revenue.

70
